HAMILTON ONEIDA ACADEMY,

Founded by Samuel Kirkland in 1793.

HAMILTON COLLEGE,

Chartered in 1812.

"It is my earnest wish that the Institution may grow and flourish; that its advantages may be permanent and extensive; and that under the smiles of the God of Wisdom, it may prove an eminent means of diffusing useful knowledge, enlarging the bounds of human happiness, and aiding the reign of virtue and the kingdom of the Blessed Redeemer."

General Information.

Admission.

It is required that candidates for admission to the Freshman Class shall not be less than fifteen years of age, with a corresponding increase for an advanced standing, that they furnish evidence of good moral character, and if from another College, a regular dismission; and that they sustain a satisfactory examination on the PREPARATORY STUDIES, or, for an advanced class, on the several studies to which the class they propose to enter has attended. None can be admitted into the Senior Class after the winter vacation.

Preparatory Studies.

IN GREEK: Xenophon's Anabasis, two books; Homer's Iliad, two books; with the Greek Grammar, including prosody and the rules for pronunciation according to the Continental method.

IN LATIN: Cæsar's Commentaries, four books; Virgil's Æneid, six books with prosody; Cicero's Select Orations; Sallust's Catiline; and either Sallust's Jugurthine War or the Eclogues of Virgil; with the Latin Grammar and Arnold's Latin Prose Composition, twelve chapters.

IN MATHEMATICS: Arithmetic, Algebra to Equations of the second degree; Plane Geometry complete.

Candidates will also be examined in English Grammar, Ancient and Modern Geography, History of the United States, and in Greek and Roman Antiquities. A Regents' Certificate of Academic Scholarship will be accepted in lieu of an examination in English Studies; and full admission will be given to a Candidate who brings a Regents' College Entrance Certificate.

ENTRANCE EXAMINATIONS are held at 9 o'clock, A. M., on Monday and Tuesday preceding Commencement, and on the last day of the ensuing vacation.

Candidates for admission to College should bring with them to the Examination Hall, pencils for writing, and a copy of each Greek and Latin Author in which they propose to be examined.

Students not candidates for a degree may pursue special branches of study under the direction of the Faculty. Such students must prove themselves on examination, qualified to pursue the studies selected, and will be required to conform to the general regulations of the College, and will be entitled on favorably completing the course to receive a certificate indicating their proficiency.

Course of Instruction.

The whole Course of Instruction occupies four years, and the Students, in all the classes, are usually required to attend three exercises on each day. The degree of BACHELOR OF ARTS is conferred upon Students who complete this Course.

The object of the course is to form the mind to habits of accurate discrimination, close reasoning, and vigorous application; and, at the same time, furnish it with the leading facts and principles in Literature, Science and the Arts.

Rhetorical Exercises.

Weekly exercises in Composition and Extemporaneous Debate take place in the several classes. Wednesday and Saturday of each week, all the Students are required to attend public exhibitions in the Chapel, of Declamation, and of Original Essays, Disputes and Orations, under the direction and criticism of the Kingsley Professor of Rhetoric.

Rhetoric and Elocution.

Rhetoric is taught, Sophomore year, by recitations from the text-book, impromptu examples, written exercises in illustration and criticism, and by daily talks and frequent lectures from the Professor of Rhetoric. In connection with the study each member of the class has assigned to him subjects in English Literature, upon which he is required to prepare essays. Besides these, subjects are announced, upon which he may write at his option. These essays are examined by the Professor of Rhetoric, and made a means of special instruction to the writer. Among the subjects upon which essays were written by different members of the Class of 1880 are the following: Butler's "Hudibras" and Cervantes' "Don Quixote." The Hell of Milton and Dante. American Dialect Poetry. Milton, as seen in "Samson Agonistes." Milton's "Lady" in "Comus," and Goethe's "Margaret." Poe, the Poet and Man. The Genius of Shakespeare, as seen in "Othello" and "Julius Cæsar." Dr. Johnson and Macaulay's Estimate of Milton. English University Life, as pictured by Thomas Hughes and Thackeray. Coleridge's "Ancient Mariner." Lander's "Pericles and Aspasia." Morris' "Life and Death of Jason." The Covenanters, as seen in "Old Mortality." Milton's "Hymn of the Nativity" and Bryant's "Thanatopsis." "Uncle Tom" and "Alton Locke." The Jew of "Ivanhoe," "Merchant of Venice," and "Daniel Deronda." American Life and Manners, as portrayed by Dickens. Scott's "Marmion." The Poetry of the West. Milton's "Lycidas" and Shelley's "Adonais." The Poets of Byron's Time, as seen in "English Bards and Scotch Reviewers." Kingsley's "Hypatia." Taine's Estimate of Tennyson. Moore and Byron as Song Writers. The French Academy. "The Minister's Wooing" and "The Circuit Rider." Byron's "Maid of Athens." Shelley's "Epithalamium" and Coleridge's "Genevieve." Scottish Character, as seen in "Heart of Mid Lothian" and "Rob Roy." Chemistry.

Through the munificence of the late Mr. SILAS D. CHILDS, of Utica, the Chemical Laboratory has undergone extensive alterations, and is supplied with new and valuable apparatus.

The Senior Class, besides receiving instruction in general Chemistry, both by lectures and recitations, in accordance with the will of Mr. CHILDS, receive a thorough course of instruction in Chemistry as applied in Agriculture.

During a portion of the year, instruction in qualitative chemical analysis, or in other special branches of Chemistry, will be given to those members of the Senior Class who may choose to pursue such studies.

Apparatus and chemicals will be furnished to students at reasonable prices. The facilities of the Laboratory are such that those who may desire to continue the study of Chemistry, after their graduation, will have an opportunity. Instruction may also be obtained in technical Chemistry by those not pursuing the regular College Course. The tuition for such students will be $25 per term. The Laboratory is furnished with facilities for conducting Chemical investigations and analyses.

Albert Barnes Department of Philosophy.

In this department Intellectual Philosophy is taught by means of text-books, lectures, debates and essays. The principal text-book is Sir William Hamilton's Lectures (Bowen's edition,) which is preferred as a source of intellectual stimulus; this is supplemented by Porter's Elements, which is prized for its greater system and fullness, especially in the discussion of the process and conditions of perception, the representative faculty, imagination, the concept, and the very valuable historical summaries scattered through the volume. The first term of the Senior Year is devoted largely to the text-book. Few lectures are given; but debates are held about once a fortnight, and volunteer essays are called for from the beginning of the course. The subjects for debates and essays are assigned some time in advance, by the Professor; for debate the students are taken according to alphabetical order in divisions of six; they choose sides by lot; the debate is *extempore;* seven minutes are allowed to each debater, and remarks and criticisms are made at the close by the Professor. The recent additions to the Metaphysical Department of the Library, secured through the exertions of the Professor, are of great use in preparing for these debates, as the books are specially

at the service of disputants, under his direction. The following are some of the questions which have been discussed with the authorities to which the students are referred:

Is Philosophy the most useful of studies?

Affirmative—Morell's History, Spec. Philos., sect. 2. Porter's Human Intellect, sec. 9–15. Jour. Spec. Philos., July, 1877, pp. 231–237. *Negative*—Lewes' Hist. Philos., Introd. and p. 769, (Appleton.)

Is Truth or Mental Culture the Superior End?

Affirmative—Lewes' Introd., pp. xiii, xiv. *Negative*—Bowen's Hamilton, pp. 7–10.

Is all Human Knowledge Relative?

Affirmative—Hamilton's Life by Veitch, pp. 414, fg. Kant's Doctrine, see Porter's Elements, pp. 438–440. Mansell's Limits of Religious Thought, pp. 96, 146. Philosophy of the Conditioned, pp. 63, fg. Herbert Spencer's First Principles, p. 68. Mill's Examination, Vol. I, Chaps. 2 and 3. *Negative*—McCosh's Intuitions; see Index. Ditto: Defense of Fundamental Truth, Chap. 10. Porter's Human Intellect, pp. 521–523; do. Elements, pp. 69–70.

Have we an Immediate Knowledge of the External World?

Affirmative—Hamilton's Reid, Notes D. and D.* *Negative*—Mills' Examination, Vol. I, Chaps. x–xiii.

Is Sight or Touch the more important in gaining a Knowledge of the External World?

Affirmative—Hamilton's Reid, Note E., p. 917. Helmholtz Pop. Scientific Lectures, p. 270. Am. Edition. Locke's Essay, 2, 9, 9. *Negative*—Porter's Elements, pp. 120, 126, 154, 164. Stewart's Elem. Vol. I, 5, 2. Thos. Brown, Lect. 29. Bain's Senses and Intell. pp. 366–373.

Is the Infinite an object of Human Knowledge?

Affirmative—Porter's Elements, 550 to the end. Calderwood's Philos. of the Infinite, chap. 3, also pp. 370–387, 397–406, 428–436. McCosh's Intuitions, pp. 186–201. Note, pp. 194–195. Mill's Exam., I, pp. 61–68, 102–124, Am. Ed. *Negative*—Hamilton's Discussions, (Philosophy of the Unconditioned.) Mansell's Limits, Lect., 2, 3, 4.

Is all Human Knowledge derived from Experience?

Affirmative—Mill's Exam., I, pp. 80, 181–189, 307–321. Bain's Mental Science, p. 181, appendix p. 33. Ribot's English Psychology, pp. 100–104, 170. Lewes on Hume, Hist., p. 577. Mill's Logic, II, Ch. 5–6. *Negative*—McCosh's Intuitions, pp. 20, 280. Defense of Fund. Truth, p. 251. Hamilton's Reid, 740–754. Am. Presby. Quart. Rev., Jan., 1866, July, 1868, April and July, 1869. Mansell's Metaph., 66, 248. Battle of the two Philosophies, Littell's Living Age, 4th series, vol. 15, p. 451.

Can Material Laws or Forces account for Mental Phenomena?

Affirmative—Tyndall's Belfast Address. Bain's Mind and Body. Herbert Spencer in Ribot's English Psychology. Prof. Hæckel in Nature, September 5, 1878. *Negative*—Porter's Human Intellect, pp. 16–40. Christlieb's Modern Doubt, pp. 145 seq. Cudworth's Intell. System, Chap. 3, p. 154. McCosh's Intuitions, 218, 352, 367–369. Bowne's Spencer, pp. 109 seq.

Does Hamilton's argument conclusively establish the Being of a God?

Affirmative—Mansell's Limits, p. 119 fg. *Negative*—Calderwood's Philosophy of the Infinite, pp. 34 fg.

Subjects for Essays: Hamilton's Style; Kant and Hume; Buckle's Treatment of the Scottish Intellect; Metaphysical Ideas in Wordworth.

These and similar questions generally arouse a lively interest, and the debates are well sustained and profitable. They do not belong to the prize system, and count only upon the general standing of the student, as is the case with the other exercises in this Department. It is through these debates that the study of Philosophy becomes a manifest stimulus to the mind, and a powerful agent in the work of self-education. In the Second Term a course of twelve lectures is delivered, the object of which is to acquaint the class with recent phases of philosophical thinking, to defend the spiritual philosophy from the sensationalism of Mill, and to combat the materialistic teachings and tendencies of Comte, Spencer and Bain. On these lectures, notes and recitations are required, and they are included in the final examination. In the third term, sometimes also in the second, a class is formed for the optional study of Greek philosophy in the original. The Phædo of Plato has hitherto been studied in the editions of Geddes, Wagner and Davis, with the aid of Schleiermacher, Ackermann, Süsemihl, Baur and Fouillée.

Litchfield Observatory.

As a means of giving more complete instruction in Astronomy, and also for the purpose of original observation, an Astronomical Observatory has been erected on the College grounds. The Astronomical Professorship and the Observatoy have been very liberally endowed by the Hon. Edwin C. Litchfield, LL. D., of Brooklyn.

The Observatory consists of a central building, with wings on the east and west sides. The central building is twenty-seven feet square, and two stories high, surmounted by a revolving tower, twenty feet in diameter. The great Equatorial in the tower, constructed by Spencer and Eaton, has an object-glass of 13.5 inches in diameter, and focal length of nearly sixteen feet; it is provided with six positive and six negative eye pieces, with a ring and filar micrometer. For solar observations it has a prismatic polarizing eye-piece of original construction by Mr. Robert B. Tolles, of Boston, Mass. The declination circle of twenty-four inches, by means of four verniers, reads to four seconds of arc; the hour circle of fourteen inches, by means of two verniers, reads to two seconds of time.

The instrument is mounted upon a granite shaft, nine feet in height, resting upon a pier of solid masonry. A clock work with *Bond's* isodynamic escapement and spring governor, causes the telescope to follow the daily motions of the stars, by acting upon long arms attached to the equatorial axis. The wings are each eighteen feet square; the east room is used as an office for the Director. In the west room is mounted a portable Transit Instrument, of 2½ inches aperture, the gift of Hon. ANSON S. MILLER, LL. D., of Rockford, Ill., and constructed by W. Wurdeman, of Washington, D. C. It has a cast iron folding stand invented by the maker.

Near the Transit is an Astronomical Clock, constructed by William Bond & Son, Boston, and presented by the late Hon. WM. CURTIS NOYES, of New York. It is regulated for mean time, and provided with the break-circuit for telegraphic operations. By the side of the Clock is a Chronograph of Bond's most recent construction, and regulated by the spring governor, presented by MICHAEL MOORE, Esq., of Trenton Falls. These instruments have been connected by a telegraphic wire with the nearest station; and the longitude of the Observatory has thus been accurately determined by exchanging star signals with the Harvard College Observatory, at Cambridge, Mass.

In its turn, the Litchfield Observatory already has become the basis of several longitudes in the State, determined under the auspices of the Regents of the University at Buffalo, Syracuse, Elmira, Ogdensburg, and of the longitude of the Detroit Observatory at Ann Arbor, Mich., which latter forms the fundamental point for the longitude of the Lake Survey. The latest work of this kind has been to determine the longitude of the western boundary of the State of New York.

Besides, the Observatory has a Sidereal Chronometer, constructed by the same makers, with Hartnup's improved combination balance; this instrument was the gift of the late Hon. GEORGE UNDERWOOD, of Auburn.

A Morse Telegraph Apparatus also has been presented by the late S. W. CHUBBUCK, of Utica, and an Aneroid Barometer by the late SIMEON BENJAMIN, of Elmira.

In order to observe the total eclipse of the sun, August 7, 1869, Mr. EDWIN C. LITCHFIELD, presented a fine portable telescope, so that an expedition could be organized, and proceed from this Observatory to Des Moines, Iowa. The cost of the expedition was likewise defrayed by the liberality of Mr. LITCHFIELD. The Telescope, the make of Messrs. STEINHEIL SONS, of Munich, has 4 (French) inches aperture, 5 feet focal length, and is mounted parallactically on a solid iron tripod, with setting circles for right ascension and declination, and has also a tangent screw for following the daily motion of a star. It has two terrestrial and six astronomical eye-pieces, (varying in power from 40 to 360,) a ring and a scale micrometer, and a sliding wedge for moderating the light. There is, moreover, fitted to the eye tube a direct vision spectroscope, with five prisms, for analyzing the light of the sun and its protuberances. This instrument will be particularly useful for the exercise of students, who may make astronomy a special study.

Another portable telescope, of the comet-seeker construction, was brought from Europe by the Director four years ago. It is the make of Mr. HUGO SCHROEDER, of Hamburg, and its object-glass has 5 inches aperture. There are 5 eye-pieces, varying in power from 25 to 275, with a ringmicrometer, and a prism for more convenient observation. The telescope is mounted on a firm wooden tripod, with circles for altitude and azimut, divided into degrees.

In order to make full use of the two last mentioned telescopes, an addition has now been built on the west side of the Observatory, connecting by a door with the transit room. It consists of an entrance or study room, and two movable domes, ten feet in diameter, the northern conical, the southern a hemisphere. Solid piers of masonry secure the stability of the instruments.

The following thirty-two Asteroids were first discovered at the Litchfield Observatory:

Knox Hall of Natural History.

The Department of Natural History has the benefit of an endowment, given by the late Hon. JAMES KNOX, LL. D., of Knoxville, Knox County, Illinois.

The Geological and Mineralogical Cabinets and Collections in Natural History, embrace the following, viz:

1. 9,000 Specimens of Ores and Simple Minerals.
2. 2,500 Specimens of Fossils and Rocks to illustrate the Geology of New York.
3. 1,000 Specimens to illustrate the Geology of the United States.
4. 600 Fossils, mostly from the Silurian Formations of Europe.
5. 500 Specimens from the Coal Formations of the United States.
6. 250 Specimens from the New Red Sandstone Formation.
7. 600 Specimens of Crystalized Minerals from New York localities.
8. 2,000 Specimens of Land, Fresh Water and Marine Shells.
9. 300 Specimens in Ornithology from China.
10. 13 Cases of Specimens in Entomology, presented by Hon. THOMAS BARLOW.
11. Plants from China, presented by Dr. S. WELLS WILLIAMS.
12. One Case of Birds from the Transit of Venus Expedition.

Sartwell Herbarium.

Through the liberality of the late HAMILTON WHITE, of Syracuse, the College Collections in Natural History have been enriched by the HERBARIUM, collected by the late Dr. H. P. SARTWELL, of Penn Yan, and well known in scientific circles as a very extensive and valuable exhibition of our North American Flora. This HERBARIUM is the result of fifty years of botanical study, research and correspondence. It contains eight thousand samples of plants, skillfully cured, accurately labeled and conveniently classified in sixty-two handsome volumes. Among the more unique or useful specimens are 451 *Mosses*, 226 *Lichens*, 341 *Sea-Weeds*, 600 *Fungi*, 575 *Ferns*, 314 *Grasses*, 200 *Ericaceæ*.

Religious Instruction.

Morning Prayers, with reading of the Scriptures are attended daily in the College Chapel. Public services are attended in the Chapel on the Sabbath, when all the students are required to be present, except such as have permission to attend at other places of worship. On Sabbath and Tuesday evenings there are religious services which all the students are invited to attend. A Church has been organized on such principles as to embrace members from various Evangelical Denominations. For the promotion of their spiritual good and highest usefulness, it is desirable

that all professors of religion coming to the Institution should bring letters and connect themselves with the College Church.

A systematic course of Biblical Instruction is arranged for the several classes, a statement of which may be found in the General View of the Studies of the Year.

The Society of Christian Research holds its meetings monthly, when reports are read on the condition of Christian Missions in various parts of the world, and questions of religious interest are discussed. The Annual Address before this Society was delivered last Commencement, by Rev. NORMAN SEAVER, D. D., of Syracuse.

Examinations.

1. Of all the Classes, at the close of the First Term.
2. Of all the Classes, at the close of the Second Term.
3. Of the Senior Class, three weeks previous to Commencement.
4. Of the other three Classes, the week previous to Commencement.
5. Of Delinquents, at the beginning of each Term.
6. Of Tompkins Prize Competitors, on first Saturday in December.
7. Of Curran Prize Competitors, on the Fourth Thursday in March.
8. Of Underwood Prize Competitors, on last Friday in May.
9. Of Candidates for admission at each Commencement and at the opening of each Term.

Public Exhibitions.

1. Junior Exhibition, at the close of the Second Term.
2. Clark Prize Exhibition, Tuesday evening of Commencement Week.
3. Kingsley Prize Debate, Tuesday preceding Commencement.
4. Kingsley Prize Declamation, on the Monday evening preceding Commencement.
5. Commencement, on the Thursday after the last Tuesday in June.

Terms.

1. From the first Thursday in September, fourteen weeks.
2. From the Thursday after the first Sunday in January, twelve weeks.
3. From the third Thursday in April to Commencement.

Second Degrees.

Graduates of three years' standing, who have continued their studies, are entitled to the degree of Master of Arts, on application to the President. The fee for the Degree and Diploma is $5, payable in advance.

Expenses.

Board, from $3.00 to $4.50 per week,	$114 00	to	$171 00
Fuel and Lights,	10 00	"	15 00
Rent for Rooms, unfurnished, from $3 to $12 per term,	9 00	"	36 00

Tuition, $25 per term,	75 00	"	75 00
Amount,	$223 00		$312 00

In addition to the preceding, any damages voluntarily committed in the community of students, are charged to the individuals or classes committing them, when known; to the whole body of students when not known, under the name of Extra Contingent Expenses.

Payment of Bills.

It is provided by a resolution of the Board of Trustees—

1. THAT ALL STUDENTS BE REQUIRED TO PAY THEIR TERM BILLS IN ADVANCE, and that no student be admitted to the recitation room after the first week of the term, unless his bills have been paid or arranged to the satisfaction of the Treasurer.

2. That no student can have an honorable dismission from the College or certificate of his previous attendance in it, until all his bills are paid or satisfactorily secured.

3. That in extreme cases, a student whose circumstances render it necessary, and who shall present satisfactory testimonials of the fact to the Executive Committee, if he is a worthy member of College, and his undergraduate course is completed in this Institution, can have his bills for tuition remitted.

The Libraries.

The College and Society Libraries, amounting to 12,000 volumes, are accessible to students.

A few gentlemen in the City of New York, a few years since, presented to the College the private library of the late EDWARD ROBINSON, D. D., LL. D., of Union Theological Seminary. It consists of 1,420 volumes, and about 100 valuable maps, and furnishes rare facilities for the study of Biblical Exegesis and Scriptural Geography.

Hon. WILLIAM CURTIS NOYES, LL. D., a native of Oneida County and an honorary alumnus of the College, after a life of eminent service, professional and political, bequeathed to Hamilton College his Law Library. The collection numbers about five thousand volumes. The books had been collected during a practice of over twenty-five years, at a cost of not

less than sixty thousand dollars. "The collection consists of all the American Reports, with scarcely an exception, down to the present time; of all the English Reports in the Courts of Law and Chancery, and in the Exchequer, down to the beginning of the year 1860; and all the Scotch decisions, in the Judiciary, Senior Courts and House of Lords; and the Irish Reports in Law and Equity.

In Elementary Law it contains all the principal treatises in England and America, among which is the 'Law Library,' in upwards of ninety volumes.

It contains a complete set, in upwards of seventy volumes, of the printed Statutes of the Colony and State of New York, including the Session Laws from the earliest period, commencing with a copy of Bradford's, printed in London in 1719, which formerly belonged to Lord De la Warr, and seems to have come from the plantation office in the colony."

The NOYES LIBRARY is at all times accessible to Members of the Bar.

The new building for the Library in honor of the principal contributor to the fund for its erection, is named the "PERRY H. SMITH LIBRARY HALL." The alumni of the College in Illinois, Wisconsin, and Iowa have also been filial and generous in their gifts.

The building is two stories high above the basement: 75 feet long and 50 broad. The first floor above the basement is divided into the vestibule and hall, two rooms for the Librarian, and the library proper. The alcoves in the library room are arranged in three tiers, one above another, and with the adjacent walls and the Librarian's rooms will furnish a place for 60,000 volumes. The library is lighted by windows in the side walls and by skylights.

Over the entrance hall and Librarian's rooms, there is an apartment for a Memorial Hall and Art Gallery, to contain tablets and portraits of the alumni and students of the College who have served their country; also portraits and other memorials of the founders of the College, its officers and benefactors.

Valuable additions have been made to the Library, in the Department of Metaphysics, by Professor Mears, whose friends have contributed in sums previously acknowledged, $392 for this purpose, to which the sum of $100 from GEORGE W. CHILDS, Esq., of the Philadelphia *Ledger*, is to be added, making $492 in all.

In honor of the prizes awarded Mr. JULIEN M. ELLIOT, '76, and Mr. FRANK F. LAIRD, '77, at the Inter-Collegiate contest in Oratory, held in the Academy of Music, New York, January 4, 1876, and January 3, 1877, fifteen hundred dollars were presented to Professor FRINK, by the Rev. PETER LOCKWOOD, the Hon. SAMUEL D. HAND, M. D., and the Hon. CHARLES MCKINNEY, of Binghamton, N. Y., for the purchase of recent books in polite literature. These books were selected by Professor FRINK, with special reference to the work of the Rhetorical Department, and are called the RHETORICAL LIBRARY. Mr. McKinney has made additional gifts to the Library, and the students have provided for its annual increase.

Absence from College.

The portion of the year allotted to vacations is so great as to render it quite unnecessary for students to visit their friends during the term, except for urgent and unforeseen reasons. The occasional loss of a day can not fail to have an unfavorable bearing on the intellectual habits and standing of the student. It is hoped that parents and guardians will concur with the Faculty in their opinion of the inexpediency of granting leave of absence in ordinary cases. During vacations the College buildings are closed; and it is not thought desirable that students from abroad should remain in Clinton.

No deduction for absence will be made in the Term bills, where the student returns to the same class which he left.

Members of the Senior Class can not be graduated unless they have been in attendance during two terms of the Senior year. No student is permitted to take part in the exercises of Commencement day who has not spent the Third Term of his Senior year in College, and made his preparation also in College.

Pecuniary Aid.

The interest of beneficiary funds, amounting to about $3,000 per year, will be annually distributed to needy students, preference being given to those of Christian character and good scholarship.

The College has received a gift of $4,000 from Samuel H. Jarden, Esq., of Philadelphia, Pa., as a permanent investment, to be known as the Jarden Fund for the aid of worthy and loyal students.

Students who are candidates for the Christian Ministry, may receive aid, if their circumstances require it, to the amount of from one hundred to one hundred and twenty dollars a year, by placing themselves under the care of the Presbyterian Board of Education, or under that of the American Education Society.

Teaching.

The Faculty keep a Register of Graduates and Undergraduates wishing engagements to teach, and will aim to nominate suitable candidates in reply to applications for teachers. Applicants for teachers should state definitely what service will be required, and what compensation will be paid.

The following appointments for teaching, or other educational work, have been recently made :

1. J. Henry Shepherd, Superintendent of Schools in Shreveport, La.
2. Lansing L. Porter, Professor of Mathematics and Natural Sciences in Robert College, Constantinople.
3. Fred Dick, Principal of Union School, Gowanda, Cattaraugus Co.
4. William S. Hall, Principal of Union School, Niagara Falls.
5. B. Dwight Holbrook, Principal of Morgan School, Clinton, Conn.
6. George P. Bristol, Teacher of Ancient Languages in Delaware Literary Institute, Franklin.
7. Newton W. Cadwell, Associate Principal of Richfield Springs Seminary.
8. Philip M. Hull, Principal of Vernon Union School.
9. Fayette Kelley, Teacher in Jackson Military Institute, Tarrytown.
10. Byron Wells, Principal of Evans Academy, Peterboro.
11. George W. Kimberley, Teacher in Susquehanna Collegiate Institute, Towanda, Pa.
12. Earl T. Lockard, Principal of Joliet High School, Illinois.
13. William Z. Luther, Teacher in Clinton Grammar School.

14–15. Frank V. Mills and Charles R. Kingsley, Teachers in Brooklyn Polytechnic Institute.

16. Preston K. Pattison, Principal of Medina Academy, Orleans Co.
17. James Winne, Principal of Holland Patent Academy, Oneida Co.

LAW DEPARTMENT.

REV. SAMUEL GILMAN BROWN, D. D., LL. D.,

PRESIDENT.

ELLICOTT EVANS, LL. D.,

Maynard-Knox PROFESSOR OF LAW, HISTORY, CIVIL POLITY, AND POLITICAL ECONOMY.

The course of instruction in Law includes the thorough and careful study of the most approved text-books. Among these are Blackstone's and Kent's Commentaries, Parsons on Contracts, Washburn's Law of Real Estate, Greenleaf on evidence, vol. 1st, and the Code of Procedure.

The great object aimed at is to store the mind of the student with the fundamental principles of the law. This is to be accomplished in such a way that he can give, at any time, a full and accurate expression of legal rules. The text-books are to be so mastered that any question may be answered readily and with exactness. Reviews of previous exercises are often repeated, until the student becomes as familiar with the rudiments of Law as with the rudiments of a language. At each exercise every student is examined on the subject studied, and expected to give the result of the text in his own words.

The Professor connects oral and familiar lectures with each recitation putting cases to the class, involving the principles of the text, and requiring a solution; and endeavoring in every manner which may suggest itself to quicken and interest the student by exciting his mind to continued action. Instead of the fitful and intermittent studies of the law office, pursued often in confusion and amidst other circumstances tending to distract the mind, the student studies law as he does any other science, with a systematic purpose and plan. Experience has proved by its unfailing tests, that on such a basis, underlying the superstructure of a careful practice, sound and accurate lawyers will be formed.

Any person of good moral character who complies with the rules of the department, may join the class. The prescribed course of study for College graduates is one year; for those not graduated, one year and one-third. After having passed the regular course of study, and the examination prescribed by the rules of the College, the student is entitled to the degree of Bachelor of Laws. The terms of tuition are $20 per term, or $60 per year, with a graduation fee of $5.

Students who do not wish to graduate, can remain any number of terms as they may choose, or study any one of the subjects embraced in the course. The order of studies in the principal subjects is: the Law of Contracts, in the Fall term; of Real Estate and Evidence, in the Winter term; the New York Code, in the Spring term.

Text-books are furnished by the Institution, and loaned to the student without charge, with the exception of Blackstone and Kent.

Admission of Attorneys.

The following rule, adopted in September, 1877, by the Judges of the Court of Appeals of the State of New York, provides that an allowance of one year will be made to graduates who are candidates for admission to the bar, and an allowance of two years for so much time actually spent in connection with the law department:

"No person shall be admitted to an examination as an attorney unless he shall have served a regular clerkship of three years in the office of a practicing attorney of the Supreme Court after the age of eighteen years. An allowance of one year shall be made to applicants who are graduates of any college or university. Any portion of time, not exceeding one year, for graduates receiving the foregoing allowance, and two years for other applicants, actually spent in regular attendance upon the law lectures or the law school connected with any college or university of this State having a department organized with competent professors and teachers in which instruction is regularly given, shall be allowed in lieu of an equal period of clerkship in the office of a practicing attorney of the Supreme Court, but in no case shall an applicant be entitled to an examination as an attorney, without having served a clerkship in the office of a practicing attorney of the Supreme Court for the period of at least one year."

Memorial Hall and Art Gallery.

By the action of the Trustees, President BROWN, Treasurer WILLIAMS and Professor NORTH have been appointed a Standing Committee to have special charge of the Memorial Hall and Art Gallery.

It is proposed to enlarge the scope of the collections in Memorial Hall. Contributions are solicited of historical paintings, landscapes, plaster casts, figures in bronze and marble, engravings, ancient coins, and other works of art, along with portraits of distinguished Alumni, and of Officers and Benefactors of the College. The following list of Portraits and other works of art, Relics and Memorials, will indicate that a good beginning for a Gallery has been made, and that the way is auspiciously opened for additional gifts:

XIV.

Explain nature of and necessity for a prologue, in the early Roman drama, and write an analysis of the prologue to the Captives.

Scholarships.

Twenty permanent Scholarships have been established, varying in their annual income from sixty dollars to one hundred. Applications for Scholarships, or for any pecuniary aid, must be made to the President in writing, and students most needy and most deserving will have the preference. The assignment of some of the Scholarships is affected by special provisions. In any case, if the student is habitually negligent of college duties, or incurs a serious college censure, he will be liable to have the aid granted him summarily withdrawn.

Hungerford Hall.

Through the liberality of Hon. JOHN N. HUNGERFORD, of Corning, a member of the Board of Trustees, the South College has been thoroughly repaired and remodeled. The renovated building contains two large recitation rooms, eighteen feet in height, with convenient keepers' rooms on the first floor. Each of the new dormitories has the best arrangements for lighting and ventilation. Outwardly the entire building has been restuccoed, and the chimnies and roof rebuilt in modern style.

Determination of Standing.

1. Each Instructor keeps a record of all College exercises in his department, according to a scale of merit ranging from *ten* to *zero*.

2. If a student who is present and prepared to recite, is not called at any exercise, he receives a credit equal to the average of his actual performance for that term.

3. For each exercise from which a student is absent and not excused, he is marked zero.

4. In estimating the value of class exercises, promptness and regularity are regarded as a merit; and all exercises, performed out of their regular time, are liable to a discount, if the circumstances seem to require it.

Metallurgy and Mining Engineering.

Instruction will hereafter be given to special or post-graduate students in assaying or metallurgy, with practical reference to the demands of mining districts.

THE COLLEGE GROUNDS.

The Park in the midst of which the College buildings stand, embraces fifteen acres. The trees which adorn it were planted at different times. The Lombardy poplars were set out between the years of 1805 and 1812, by Rev. SAMUEL KIRKLAND; the older elms in 1830, by OTHNIEL WILLIAMS, Esq., then treasurer of the College; and the groups of maple and ashes directly in front of the dormitories, in 1836, by President PENNY.

In the year 1853, the grounds were enlarged and laid out anew according to the modern English method. It was the design of the committee having the matter in charge, to obtain specimens of every tree and shrub supposed to be hardy in the climate of Central New York. A Pinetum was planted by the late Rev. Dr. A. D. GRIDLEY, which contains a large variety of hardy conifers. Labels have been affixed to many of the rarer trees and shrubs, showing the scientific name of each, together with its popular name and habitat. In those portions of the grounds daily traversed by the students, plots have been devoted to the culture of shrubs and flowering plants. Within a few years the campus has been invested with a new interest, by the planting of memorial trees by the successive graduating classes, and the erection of memorial stones, sun-dials, classic vases and garden seats.

It is the design of the Trustees and Faculty, to render this Park increasingly attractive. New trees and plants will be added to the present collection, as fast as they can be obtained. And for the more speedy accomplishment of this end, contributions are invited from the friends of the Institution. The Curators of the College grounds are Prof. OREN ROOT, JOHN C. HASTINGS, Esq., and JOHN E. ELIOTT, Esq. Communications on this subject may be addressed to either of the Curators.

1. Members of the Junior Class intending to compete at the Tompkins Mathematical Prize Examination, must make known their intention to the Professor of Mathematics, on or before the second Saturday of the First Term.

2. The examination will be held in the Lecture Room of the Cabinet, beginning at nine o'clock, and closing at one.

3. The work to be done will be the solution of ten problems, founded upon the mathematics of Sophomore year, and first term Junior.

4. Each competitor must bring with him materials for writing, but no written or printed matter.

5. Copies of the successful Prize Papers will be kept in the College Library.

REGULATIONS

For the Thirteenth Prize Debate.

MONDAY, JUNE 23, 1879.

1. The Twelfth Prize Debate will be held on the afternoon of the Tuesday preceding Commencement, under the direction of the Kingsley Professor of Rhetoric.

2. From the members of the Senior Class who have gained the highest average standing in extemporaneous speaking, during their Junior and Senior years, not more than six Prize Debaters will be appointed by the Faculty. Their names, with the question for debate, will be announced at the last session of the final Senior Examination. At the same time the position of the debaters on the affirmative or negative will be determined by lot.

3. At the Debate, the order in which the competitors on the affirmative and those on the negative are to be called, will each be determined by lot, publicly drawn at the time. Each competitor will be called twice; and will be allowed to speak ten minutes on the first call, and five minutes on the second call.

4. A first prize of $70.00, and a second prize of $30.00, will be awarded by a committee of three gentlemen, not members of the Faculty; and the award will be announced at the close of the debate.

REGULATIONS FOR THE

Twenty-Fourth Curran Prize Examination.

THURSDAY, MARCH 27, 1879.

1. The competition for the Curran and Hawley medals is open to members of the Junior Class.

2. The examination will be held in the Examination Hall, commencing at nine o'clock, and closing at two o'clock.

3 Each competitor is required to bring with him pens and ink, and a quire of "legal cap" paper.

4. Competitors are not allowed to bring with them any written or printed matter, any engraving or models for drawing, or to hold any communication with each other. A violation of this rule will vitiate the work of one so doing.

5. Only one face of each half sheet is to be written upon, the other being left blank. There should also be an inch of margin on the left edge of each sheet.

6. The pages should be numbered at the top, with the student's name repeated beneath each number.

7. The several portions of the work should likewise be numbered according to the numbers of the printed questions.

8. At half past one notice will be given that competitors may review, correct, and finish their work. At two o'clock the papers are to be given up.

9. In estimating the merit of competitive work, two points will be especially considered:

(1.) Exactness in rendering; fullness and accuracy of information on the subjects proposed.

(2.) Neatness, elegance, and logical arrangement in the exhibition and utterance of knowledge.

10. The kind of work to be done may be as follows, viz.:

(1.) Translation from and into Greek and Latin.

(2.) Analysis of words, including derivation, synonyms, inflection and dialectic changes.

(3.) Analysis of sentences, with rules of construction, illustrative maps and drawings, and the answering of questions in History, Geography and Mythology,

(4.) Analysis of Metres, including quantity, rhythms and nomenclature.

(5.) Rules and practice of Greek accentuation.

(6.) Criticism on the style and subject-matter of the authors quoted from.

PRIZES AND DEGREES CONFERRED.

BENEDICTION.

SOCIETY OF ALUMNI.

This Society is composed of graduates from the College, and those upon whom it has conferred honorary or *ad eundem* degrees. Among its objects is the encouragement of Science and Letters, more especially in their connection with Hamilton College. It has the use of an alcove in the College Library, to which donations are solicited of books, pamphlets and papers, whose authors are Alumni of Hamilton. It seeks also the promotion of friendly feeling and sympathy among its living members, and the rendering of fit honor to the departed. Its annual meeting is held on the day preceding Commencement. Persons who can supply information appropriate to the Triennial Catalogue or the Obituary Record, are requested to communicate the same to the Necrologist. Catalogues and Schemes printed during the presidency of Rev. Dr. DAVIS would be especially welcome, for filling imperfect files.

Regulations for the Election of Trustees.

1. The election shall be held in the Chapel of the Stone Church, in Clinton, on the day preceding the annual commencement, and the polls shall open at 12 M., and close at 1 P. M.

2. The president and secretaries of the Society of Alumni shall act as the president and secretaries of the meeting, unless others are chosen in their places.

3. Three inspectors of election shall be appointed by the Board of Trustees of the College, with the usual powers, who shall receive and canvass the votes, and declare the result, and shall communicate the same in writing to the Board of Trustees.

4. Every graduate of the college of at least three years' standing shall be entitled to vote at such election. No person shall be eligible as one of the trustees unless he be a graduate of the college of at least ten years' standing.

5. Graduates not intending to be present at the election, may forward their ballots to any officer of the Society of Alumni residing in Clinton, who shall indorse his own name upon the ballot before depositing the same, it being required in every case that the name of the voter and of the candidate voted for, shall be in the handwriting of the voter.

6. A majority of all the ballots cast shall be necessary to the election of a trustee.

7. If no person receive a majority on the first balloting, a second or other balloting may be taken until an election is made.

8. An absent voter may send a second ballot to be deposited in his name, in case there is no choice on the first balloting. If no second ballot is sent, then the ballot used on the first balloting may be again used or withheld on the second or any subsequent balloting, at the option of the agent holding the same.

9. Whenever a vacancy shall occur from death, resignation or any other cause, the graduates shall elect a trustee to fill the office for the remainder of the term, in which a vacancy has occurred, in the usual manner as above provided.
